

WINDOW VISITING

WHAT IS IT

Since the Governors 'stay at home' order is still in place, visiting with residents/patients by phone or Skype is still the recommended form of communication. However, if families choose to come to the Facility to say hello to their loved one through the window, these guidelines must be followed:

- Keep at least a 6-foot distance for anyone you encounter outside.
- DO NOT enter courtyards – these are reserved for our residents!
- BE CAREFUL! There is uneven terrain around the facility. Please also be careful not to step on any plants or flowers around the facility/in front of resident rooms.
- Follow attached map and look for room numbers painted on windows but know that there are certain residents are not accessible by the window in their room. If a resident is in a bed-1 (meaning they should not cross over into the bed-2 window space) or a room not accessible from the outside due to a courtyard, other arrangements for window visits can be made by contacting the facility and selecting the unit that your loved one resides on. *Please call the nurse and give notice of your intended visit time before arriving, especially if you wish to utilize a facility phone while visiting. This notice helps the nursing staff have time to make any special arrangements that are needed, i.e. having your loved one up in their wheelchair by the window.*

- **NORTH RIDGE:**

- Green Gables – Rooms 101-118
 - **Not accessible** due to courtyard: 101, 103, 105, 107, 109, 111, 113
